Academic and Intellectual Integrity Policy for Students

These regulations are made by the competent authority with the purpose of providing ethical guidelines regarding 'Academic Integrity' to the students of 'College of Engineering & Management, Kolaghat'

CEMK's Academic and Intellectual Integrity Policy for Students

Preamble

College of Engineering and Management, Kolaghat (CEMK) has framed its 'Academic and Intellectual Integrity Policy' with a view to fostering values within the student community, so that they realize that academic integrity is an integral part of their academic life.

AICTE Circular on Academic Integrity

AICTE Circular: F.No. AICTE/P&AP/Misc./2017 Date: 30.11.2017 from POLICY & ACADEMIC PLANNING BUREAU CIRCULAR regarding:-'Promotion of academic integrity and excellence and prevention of plagiarism'

"You are aware that plagiarism has become a serious issue for students, academicians and researchers which affect the overall credibility of the academic institution and the nation.

It is needless to mention that any academic and R&D work undertaken in any form by a student, faculty and researcher or a staff reflect the extent to which elements of academic integrity, originality and innovation has been injected in various processes of education adopted by educational institutions.

In order to develop a robust innovation ecosystem in technical institutions and to prevent the menace of plagiarism, it is advised that all AICTE approved institutions should create awareness about academic integrity and use the credible anti-plagiarism software for all their academic and R&D related activities such as M.Tech/B.Tech project reports, Ph.D thesis and research publications etc. in this regard.

Awareness workshops are conducted by the colleges for promoting integrity and preventing plagiarism. Institutes should warn the stakeholders about penal action in case of detection of plagiarism"(emphasis added)

What is 'Academic Integrity'

Academic Integrity is a way of life. As stated in the Massachusetts Institute of Technology (MIT) Handbook-1 on 'Academic Integrity": it is an approach to doing anything honestly "whether solving a Maths problem, writing a research or critical paper, or taking an examination".

Objectives of Academic Integrity Policy of CEMK

In keeping with the avowed principles of world-renowned institutions, as well as in keeping with the AICTE guidelines, CEMK too affirms 'Academic

and Intellectual Integrity' as a core institutional value.

CEMK has framed its Academic Integrity Policy with a view to fostering values within our student community, so that they realize that Academic and Intellectual Integrity is an integral part of their academic life.

The overall objective of framing such Academic Integrity policies would be to maintain high standards of professional competence, conduct, and ethical practices.

The following policies are therefore being stated with the purpose of creating campus-wide academic integrity programmes.

Academic and Intellectual Integrity Policies of CEMK

Just as the 'ACM Code of Ethics and Professional Conduct' states that its policies are to "inspire and guide the ethical conduct" (Preamble of ACM Code of Conduct) the following policies of CEMK too might serve similar functions

All students of CEMK would need to uphold, and respect the policy of academic honesty. Cheating or copying cannot be allowed. So whether the student is solving an assignment sheet or handing in a term paper or taking an examination or even citing an article, or making a power-point presentation either solo or in a group, he or she needs to do her own thinking and put in his or her hard work to really imbibe knowledge.

Students are also being warned not to indulge in Plagiarism. Plagiarism occurs "when you use another's words, ideas, assertions, data, or figures and do not acknowledge that you have done so" (MIT Handbook 5)

So like other renowned educational institutes, CEMK too wants to encourage students to use the intellectual learning resources responsibly, in the following manner:

- When one is writing a paper one should provide complete information about the source (author, title, name of publication, date etc) and at the end of the paper give proper bibliography.
- In a presentation the student should acknowledge on the slide where the graph and chart came from.
- Wikipedia should not really be used as a source in an academic paper.

When citing Electronic sources

It is important to check the link; the reliability; the date on which it was retrieved.

Writing Code

For Academic writing generally the URL and the date of retrieval has to be given.

Open Source Software

Again when using Open Source Software one needs to attribute both the source and follow the terms of any Open Source License, that applies to the Code being used.

All these practices of academic integrity would inculcate the need to “respect the work required to produce new ideas, inventions, creative works, ..”(ACM Code of Ethics 1.5)

How to foster Academic Integrity for Students

Often students are under pressure to perform well. If under undue stress he or she should talk to the faculty members, regarding the problems he is facing.

Other Guidelines for students

- i. Prepare himself/herself for his/her academic life.
- ii. Study hard and be prepared to work independently.
- iii. If working in a team, students should contribute well and acknowledge all sources, citations and partners who helped to collaborate.
- iv. Give credit where it is due, but not to allow any intellectual contributions/ creations to be wrongly used.
- v. Whether in the classroom, laboratory, hostel or Library while writing a term paper, or completing an assignment or project work students have to work honestly. Cut, copy and paste cannot be a way of life.

Conclusion

Academic Integrity would help our students to reinforce both their character and learning. Students need to realize that in their future professional lives as professionals, and as leaders they need to participate in “ethical decision –making. ” They also have to use their knowledge for the benefit of society.

Honesty would lead to value addition of the degree. Successful implementation of our ‘Academic and Intellectual Integrity Policy’ would lead to successful fulfillment of the Institutional Mission of encouraging “Academic Excellence”.

Our students would be valued members of the Academia, and the Industry, as well as become valued members of society.

ALL INDIA COUNCIL FOR TECHNICAL EDUCATION

New Delhi

NOTIFICATION

Dated 01-07-2009

Sub: Prevention and prohibition of Ragging in technical Institutions, Universities including Deemed to be Universities imparting technical education.

F.No.37-3/Legal/AICTE/2009 – In exercise of the powers conferred under Section 23 read with Section 10 (b), (g), (p) and (q) of AICTE Act, 1987, the All India Council for Technical Education, hereby makes the following Regulations:-

1. Short title and commencement:-

- (i) These Regulations may be called the All India Council for Technical Education (Prevention and Prohibition of Ragging in Technical Institutions, Universities including Deemed to be Universities imparting technical education) Regulations 2009.
- (ii) They shall come into force on the date of the notification.

2. Objectives:-

In view of the directions of the Hon'ble Supreme Court in SLP No. 24295 of 2006 dated 16-05-2007 and in Civil Appeal number 887 of 2009, dated 08-05-2009 to prohibit, prevent and eliminate the scourge of ragging including any conduct by any student or students whether by words spoken or written or by an act which has the effect of teasing, treating or handling with rudeness a fresher or any other student, or indulging in rowdy or undisciplined activities by any student or students which causes or is likely to cause annoyance, hardship or psychological harm or to raise fear or apprehension thereof in any fresher or any other student or asking any student to do any act which such student will not in the ordinary course do and which has the effect of causing or generating a sense of shame, or torment or embarrassment so as to adversely affect the physique or psyche of such fresher or any other student, with or without an intent to derive a sadistic pleasure or showing off power, authority or superiority by a student over any fresher or any other student, in all higher education institutions in the country, and thereby, to provide for the healthy development, physically and psychologically, of all students, the All India Council for Technical Education,(AICTE) brings forth these Regulations.

The affidavit should be filled up and signed by the candidate to the effect that he/she is aware of the law regarding prohibition of ragging as well as the punishments, and that he/she, if found guilty of the offence of ragging and/or abetting ragging, is liable to be punished appropriately.
4. The application form shall also contain a printed affidavit, preferably both in English and Hindi and/or in one of the regional languages and the affidavit should be signed by the parent/guardian of the applicant to the effect that he/she is also aware of the law in this regard and agrees to abide by the punishment meted out to his/her ward in case the latter is found guilty of ragging and/or abetting ragging.
5. The application for admission shall be accompanied by a document along with the School Leaving Certificate/Character Certificate which shall include a report on the behavioral pattern of the applicant, so that the institution can thereafter keep intense watch upon the student who has a negative entry in this regard.
6. A student seeking admission to the hostel shall have to submit another affidavit along with his/her application for hostel accommodation that he/she is also aware of the law in this regard and agrees to abide by the punishments meted out if he/she is found guilty of ragging and/or abetting ragging.
7. Every technical institution, University including Deemed to be University imparting technical education shall maintain a proper record of the affidavits obtained to ensure its safe up keep thereof, including digital copies of the affidavits and such digital copy should be made available to the AICTE or to an Agency identified/nominated by AICTE.
8. The AICTE or an Agency identified/nominated for the purpose and affiliating Universities and Directorate of Technical Education of the concerned State Govt./UT shall maintain an appropriate data base of the affidavits in the digital form obtained from every student at the time of admission to the technical institutions, Universities including Deemed to be Universities imparting technical education.
9. Each batch of freshers should be divided into small groups and each such group shall be assigned to a member of staff. Such staff member should interact individually with each

member of the group on daily basis to ascertain the problems/difficulties, if any faced by the freshers in the Institution and extend necessary help.

10. In case of freshers admitted to a Hostel it shall be the responsibility of the teacher in charge of the group to co-ordinate with the warden of the Hostel and to make surprise visits to the rooms in the hostel where the members of the group are lodged. Freshers should be lodged in a separate hostel block wherever possible and where such facilities are not available, the college/institution shall ensure that seniors' access to freshers' accommodation is strictly monitored by wardens, Security Guards and Staff.
11. Every institution should engage or seek the assistance of professional counselors at the time of admissions to counsel 'freshers' in order to prepare them for the life ahead, particularly for adjusting to the life in hostels. At the commencement of the academic session the Head of the technical Institution, University including Deemed to be University imparting technical education shall convene and address a meeting of various functionaries/agencies, like Wardens, representatives of students, parents/guardians, faculty, district administration including police, to discuss the measures to be taken to prevent ragging and steps to be taken to identify the offenders and punish them suitably.
12. Every fresher admitted to the technical Institution, University including Deemed to be University imparting technical education shall be given a printed information booklet detailing when and whom he/she has to turn to for help and guidance for various purposes (including Wardens, Head of the institution, members of the anti-ragging committee, relevant district and police authorities), addresses and telephone numbers of such persons/authorities, etc.
13. The technical institutions, University including Deemed to be University imparting technical education through the information booklet mentioned above shall explain to the new entrants the arrangements for their induction and orientation which promote efficient and effective means of integrating them fully as students.

**AWARENESS BOOKLET FOR
MASSIVE OPEN ONLINE COURSES (MOOCs)**

PREAMBLE

SWAYAM is a programme initiated by the Government of India under MOOCs (Massive Online Open Courses). SWAYAM is designed to achieve the three cardinal principles of Education Policy viz., access, equity and quality. The objective of this effort is to take the best teaching learning resources to all, including the most disadvantaged. SWAYAM seeks to bridge the digital divide for students who have hitherto remained untouched by the digital revolution and have not been able to join the mainstream of the knowledge economy. This is done through a platform that facilitates hosting of all the courses, taught in classrooms from Class 9 till post-graduation to be accessed by anyone, anywhere at any time. All the courses are interactive, prepared by the best teachers in the country and are available, free of cost to any learner. More than 1,000 specially chosen faculty and teachers from across the country have participated in preparing these courses.

The courses hosted on SWAYAM are in 4 quadrants – (1) video lecture, (2) specially prepared reading material that can be downloaded/printed (3) self-assessment tests through tests and quizzes and (4) an online discussion forum for clearing the doubts. Steps have been taken to enrich the learning experience by using audio-video and multi-media and state of the art pedagogy / technology.

In order to ensure that best quality content is produced and delivered, nine National Coordinators have been appointed. They are:

1. AICTE (All India Council for Technical Education) for self-paced and international courses
2. NPTEL (National Programme on Technology Enhanced Learning) for Engineering
3. UGC (University Grants Commission) for non technical post-graduation education
4. CEC (Consortium for Educational Communication) for under-graduate education
5. NCERT (National Council of Educational Research and Training) for school education
6. NIOS (National Institute of Open Schooling) for school education
7. IGNOU (Indira Gandhi National Open University) for out-of-school students
8. IIMB (Indian Institute of Management, Bangalore) for management studies

9. NITTTR (National Institute of Technical Teachers Training and Research) for Teacher Training programme

Courses delivered through SWAYAM are available free of cost to the learners, however learners wanting a SWAYAM certificate should register for the final proctored exams that come at a fee and attend in-person at designated centres on specified dates. Eligibility for the certificate will be announced on the course page and learners will get certificates only if this criterion is matched. Universities/colleges approving credit transfer for these courses can use the marks/certificate obtained in these courses for the same.

MOOCs are online courses available to anyone with a computer and Internet connection. They offer students a way to learn in a setting similar to an online class, but are usually structured and can be accessed without paying tuition or committing to an academic program. Whether a student should sign up for a MOOC will depend on his or her academic and professional goals. To learn just for fun or to get a certificate for a small fee, MOOCs are ideal.

The 3 Primary Characteristics of MOOCs

- Open to Everyone

If an individual wants to learn, has access to the Web and a computer that meets the hardware requirements for the MOOC, then they can enroll. Because the class information and materials are available electronically, and there is no physical classroom, there are usually no limits to the number of students who can enroll in a MOOC.

- Free

In most cases, MOOCs are entirely free. While some MOOC providers do charge a fee, it's usually a small fee in exchange for a certificate of completion or some other non-degree credential earned upon successful MOOC completion. Some MOOCs do result in academic course credit; however, these are usually offered only to students who are already formally enrolled in an academic institution.

- Flexible Course Structure

Given the online class format and the fact that anyone can sign up to take a MOOC, the coursework is generally self-paced. Students can dive into learning at their own pace and on their own time. When a student is enrolled in a MOOC to obtain a certificate or academic credit, there will be more structure, such as grading and a rough schedule for class progression.

While most MOOCs are offered for free, some do require a fee – and that’s why sometimes MOOCs are confused with online college classes or online academic programs. It’s important to remember that paid MOOCs offer a tangible or formally recognized credential, while free MOOCs do not. Free MOOCs don’t offer anything more than the joy of learning something new.

Benefits from MOOCs

While MOOCs are not a total replacement for traditional education or even online college programs, they serve a much-needed demand for convenient, quality education. Depending on an individual’s academic needs, MOOCs can be the perfect learning delivery method. The following groups of individuals benefit from MOOCs in their own, unique ways.

Teachers

Teachers can obtain a tremendous amount of professional development through MOOCs. Benefits of taking MOOCs include learning new teaching styles and methods, completing continuing education requirements, collaborating with fellow teachers and obtaining additional knowledge and training to supplement the teacher’s current lesson plan. Then there’s also the interesting feeling of being a student again.

Students

With almost nonexistent class limits and self-paced learning options, MOOCs make learning convenient for students. Students benefit from MOOCs in a wide variety of ways, whether it’s getting extra instruction on a class project, having access to self-tutoring materials for a difficult subject or obtaining course credit for a graduate degree. And since MOOCs are almost always free, students can take classes purely for learning enjoyment without using up semester course limits or paying tuition.

Working Professionals

Working professionals are most able to benefit from MOOC’s self-paced and customizable curriculum features without the cost of formally enrolling in an online academic program. For those who need additional training to get that promotion or be better prepared for working in a different field, MOOCs offer a free way for working professionals to learn on their own time. MOOCs also offer special certificates that provide evidence of completion and mastery of a given subject, which can be nice to include with a resume.

Lifelong Learners

With MOOCs, lifelong learners have a plethora of classes to choose from and the ability to learn only what they want to learn, on their own schedule. Since lifelong learners learn for the sake of learning, they don’t need a

degree, diploma or certificate. This means all they need is time and can save their money for tuition on other things in their lives.

Hobbyists

With more advanced technology becoming available to the public, many hobbyists see the benefit of technical training to take full advantage of leisure activities. For example, with 3D printing and drones becoming ubiquitous, many individuals who do not have a manufacturing, engineering or scientific background can benefit from taking these types of courses for free, on their own time.

Steps to taking a MOOC

Student can usually get started within minutes as long as they have an e-mail address. But to get the most out of your time and ensure your academic and professional goals are met, you may need to take additional steps.

Figure out your reason for taking a MOOC

If you're taking a MOOC because you're interested in writing your own apps for smart phones as a hobby, that's one thing. On the other hand, if you're taking a MOOC to get a certificate of completion or obtain academic credit, that's a different.

Determine if a prerequisite is required

Because even the most advanced MOOCs are available to anyone, it may not seem like prerequisites should matter. But to make the most of what the course has to offer, it will help to have an understanding of the foundational concepts before taking the MOOC.

Confirm technical requirements

If a student has an Internet connection with a Laptop/Computer, they can take a MOOC.

Register with the MOOC provider

Registration usually consists of just providing a name, e-mail address and other basic information. After that, individuals can immediately start taking their MOOC.

Pay the fee

Most MOOCs are free and those that aren't often provide some form of recognition upon completion of the MOOC, such as academic credit or a certificate. Depending on the MOOC, fees may be paid online.

Final examination

For getting certificates, students must sit in the final examination of MOOC in the schedule time given at the time of registration.

MOOC Technology

MOOC course materials are often delivered in multiple formats, such as video lecture recordings, written text and academic exercises. Few lectures will be offered live, but this is occasionally available. Some MOOCs consist mostly of written text, including lecture slides, quizzes and worksheets requiring students to read the material and engage in written exercises. Others will have a stronger emphasis on video lectures.

Most MOOCs can be taken at any time with no set schedule whatsoever. However, some MOOCs, such as those offered with a certificate or for academic credit, must be taken during a certain time period, usually lasting several weeks to several months. There are also MOOCs that are completely self-paced, yet have a particular starting date. Some special programs consisting of multiple MOOCs will strongly recommend courses be taken in a particular order.

Activity under MOOCs

NPTEL

The National Programme on Technology Enhanced Learning (NPTEL) was initiated by seven Indian Institutes of Technology (Bombay, Delhi, Kanpur, Kharagpur, Madras, Guwahati and Roorkee) along with the Indian Institute of Science, Bangalore in 2003. Five core disciplines were identified, namely, civil engineering, computer science and engineering, electrical engineering, electronics and communication engineering and mechanical engineering and 235 courses in web/video format were developed in this phase.

NPTEL MOOCs

NPTEL began offering open online courses in March 2014 along with certificates from the IITs/IISc for those who completed the courses successfully.

It is now possible for ANYONE outside the IIT System to be able to do an online certification course from NPTEL and get a certificate from the IITs. IITs are reaching out and taking education to the homes of people through this initiative.

MOOCs for B.Tech Honours

MAULANA ABUL KALAM AZAD UNIVERSITY OF TECHNOLOGY, WEST BENGAL
(Formerly Known as WEST BENGAL UNIVERSITY OF TECHNOLOGY)

Date: 05.08.2021

Massive Open Online Courses (MOOCs) scheme at MAKAUT, WB (Applicable from the session 2020-21)

(Updated on 05.08.21)

All India Council for Technical Education (AICTE) has introduced Model Curriculum for Bachelor of Technology programme with 160 credits in the entire programme of 4 years, and additional 20 credits will be required to be achieved through Massive Open Online Courses (MOOCs) from different platform for the degree of Bachelor of Technology with Honours. These additional 20 credits will have to be acquired with online courses (MOOCs) as per AICTE. Students of B Tech program will have to complete additional 20 credits through MOOCs within 4 years of time. 16 credit points is applicable for 3 year UG programs. This creates an excellent opportunity for students to acquire the necessary additional skill set for employability through massive open online courses where the rare expertise of world famous experts from academics and industry are available. Maulana Abul Kalam Azad University of Technology, West Bengal (MAKAUT,WB) has thus decided to introduce AICTE model curriculum for its B.Tech Programmes and allow students to choose courses from any established online platform as per following revised guidelines from academic year 2020-21.

GUIDELINES FOR MOOCs

MOOCs (Massive Open Online Courses) have been inducted in University curriculum and academic activities in the following ways:

1. MOOCs for Honours Degree at Undergraduate Level
2. MOOCs for mandatory Coursework of Research Scholars for Ph.D. degree
3. MOOCs are also used for credit transfer as equivalent to theory courses of Curriculum under recommendation of BoS.
4. MOOCs for Mandatory Additional Requirements (MAR)

1 (A) MOOCs for B.Tech Honours Degree

For B.Tech Honours Degree, a B.Tech student will have to earn 20 credits from MOOCs from any established MOOCs platform addition to 160 credits for B.Tech degree.

The total of 20 credits that is required to attain eligibility for B.Tech Honours degree is distributed over four years in the following way:

1st year: 4-8 credits	2nd year: 4-8 credits
3rd year: 4-8 credits	4th year: 4 credits

A student of first year has to cover courses from at least three skills:

1. Computer Programing with Python /R
2. Soft skills
3. values and Ethics

MAULANA ABUL KALAM AZAD UNIVERSITY OF TECHNOLOGY, WEST BENGAL
(Formerly Known as WEST BENGAL UNIVERSITY OF TECHNOLOGY)

Students of all streams are to be equipped with Programming skill in the language that is in high demand worldwide in the first year itself so that they can apply this skill in the subsequent semesters in their different areas including their core area of study.

Soft skill is very essential for grooming of the student and student must be exposed to it in the very beginning of the 4 year long program.

Ethics is something that one should practice. Students are to be made aware of the ethics right in the beginning of the 4 year long program so that they can practice at least some of the ethical norms as applicable to Institutional environment and society, and be prepared to practice ethics in their working life.

All of the MOOCs courses are to be taken any MOOCs platform as per following scheme of credit points. There would not be any concept of fixed basket anymore. However, during choosing courses in the online platform students would essentially avoid the courses taught/offered through the curriculum in the offline / class room mode.

For NPTEL/Swayam platform: Credit points as specified in the platform
For other MOOCs platforms like Coursera, edX, Udemy, Simpilearn etc
Courses of 4 weeks to 7 weeks: 1 credit point
Courses of 8 weeks to 11 weeks: 2 credit point
Courses of 12 weeks to 15 weeks: 3 credit point
Courses of 16 weeks or more: 4 credit point

Where duration of MOOCs courses are available in hours

For every 8 hours of course: 1 credit point

However, for the courses with duration less than 8 hours, multiple courses could be taken together (preferably in the same area) to consider 1 credit point. But where duration is available in week, count of hours will not be applicable.

The above structure is indicative only. And BoS/DC concerned may propose credit points of the courses offered through MOOCs platform based on the content and level (beginner/intermediate/ advanced) of the courses.

1 (B) MOOCs for B. Pharm Program

For B. Pharm Honours degree, **8 credits** will have to be obtained by students in addition to the credits specified for B.Pharm degree curriculum during entire period of 4 years. These credits have to be obtained through the MOOCs platforms.

1 (C) MOOCs for UG Architecture Degree

For B. Arch Honours degree, **8 credits** will have to be obtained by the students in addition to B. Arch Curriculum during entire period of 5 years from MOOCs platform.

1 (D) MOOCs for Non-AICTE UG Programs (Non CBCS curriculums)

For Non-AICTE programs, a student will have to earn 16 credits from MOOCs in addition to 120 credits for UG degree.

The total of 16 credits that is required to attain eligibility for Honours degree is distributed over four years in the following way:

1st year: 4-8 credits 2nd year: 4-8 credits 3rd year: 4 credits

As mentioned earlier, Student has to cover courses in the first year:

MOOCs on R or Python Programming Language, MOOCs on Soft skill and MOOCs on Values & Ethics for the reason already mentioned.

The scheme of credit calculation would be same as mentioned above for different MOOCs platforms.

2. MOOCs for Research Scholars for Ph.D. degree

Research scholars have to take MOOCs as mandatory as a part of coursework for Ph.D. degree as per advice of the Research Supervisor. The credits for the course will be as per the assignment of credit for the course in the University website according to the length (in weeks) of the course, even if there is different credit assignment in the MOOCs platforms.

3. MOOCs for Credit Transfer

University had already introduced provision of credit transfer through MOOCs courses. Therefore, different courses of curriculum could be taken from MOOCs platform and credits could be transferred, if offered through online and credits are earned. However, to offer courses of curriculum through MOOCs platform like NETEL/SWAYAM/ Coursera/edX/Simplilearn etc, offering institute must get the course mapping (Mapping between the University course and that offered from the online platform) approved from the University for appropriate Credit Transfer Scheme.

If a student of the university is unable to attend a theory course due to attending internship or any other justified reason, the student may be allowed with special permission of the University to pursue equivalent MOOCs for against the theory course. However, content mapping to be completed preferably by BoS or appropriate authority is essential before opting the courses in MOOCs platform. More than one MOOCs courses may be necessary to be mapped to cover the syllabus of the theory course and the student has to complete all the MOOCs to cover the course. Credits earned in total in all the courses will be considered for equivalence and credit transfer.

Evaluation of the MOOCs course

Evaluation of the MOOCs courses would be done by the organization by whom it is being offered. In extraordinary circumstances, the modality of evaluation through certified personnel, online or offline, will be decided by the appropriate authority.

Uploading of MOOCs Data

Every Affiliated Institution has to upload the details of MOOCs data in respect of each student time to time in University's examinations portal and/or hard/soft copy as per instruction of the Controller of Examinations of the University. This is applicable for University's In-House Programs also.

4. MOOCs for Mandatory Additional Requirements (MAR)

MOOCs in MAR is provided for encouraging every student to enter in Digital Content form of Education from well-known Universities or organizations.

Students can choose any MOOCs course as per their interest area. There is no credit system for MOOCs in MAR as points could be earned as specified in the scheme and the MOOCs courses which are taken for earning credits for Honours degree will not be considered in MAR purpose.

The validity of uploaded certificates in the University portal is subject to acceptance of appropriate committee/expert review.

Colleges interested to deliver any course(s) online through MOOCs platform, should get vetted from the University regarding mapping of course for credit transfer/assessment process.

This notification supersedes all earlier instructions regarding MOOCs courses.

Credit Transfer

B. Tech 8th semester students opting fully for MOOCs courses will not have to appear for any internal examination of the 8th semester theory papers but have to submit the MOOCs assignment completion documents.

They will also not have to appear for the end semester examinations of the B. Tech 8th Semester Theory papers but have to submit the final result obtained from MOOCs.

Students will have to submit to their respective colleges the certificates obtained from NPTEL after completion of continuous assessments and end course evaluation. For practical papers the students have to submit the certification obtained from <http://spoken-tutorial.org>

For other streams the university may issue similar notices in subsequent semesters

Students should look up the website and register for the courses and sit for the requisite examinations after doing the needful. Instructions which are issued from time to time by the NPTEL can be followed and it can help link the NPTEL Certificates with AICTE ones since a MOU has been signed between the two.

Benefits to the College

- NPTEL website mentions the college as partner
- Anytime updation of NPTEL contents
- Regular updates provided to the college on new initiatives
- Can provide feedback about the running courses
- Request for tailor made new courses
- Customized courses aligned with the college semester
- Faculty can act as Mentor and monitor progress of students
- Can recommend for scholarship

Benefits to the Students

- Have access to all video lectures of NPTEL locally to view and copy
- Get information about all upcoming courses from SPOC
- Get help of Mentor, if available
- Use college infrastructure for course access
- Be motivated by fellow students, group work

Students are therefore advised to go in for the suggested requisite NPTEL Courses which might:

1. Enhance one's knowledge.
2. Obtain B.Tech (Hons) degree with the credits earned from NPTEL-AICTE Certificate courses
3. Earn points for Mandatory Additional Requirement (MAR).
4. Students who register and give the exam are being asked for their consent to allow NPTEL to share their details with potential interested employers.
5. Such courses and certificates can be quoted while applying for internship at Companies. IIT Faculty also sometimes invites the toppers to interact with them.
6. Strengthens the fundamentals of the student
7. Opportunities to explore new areas of interest – which are not possible in a regular college environment.
8. Self-learning initiative of the students
9. The certificates issued bear the stamp of CCE, IIT and hence are valuable additions when the student is applying for jobs.
10. Companies can also dig into this pool of candidates with specialized skills – in case they wish to recruit.

All students of all years are therefore being urged to look up the websites themselves and read the notifications, and look up the NPTEL and other courses offered, talk to their HOD's, subject teachers or mentors and register for requisite courses.

**Mandatory Additional
Requirement (MAR)**

After completing higher studies, a student is expected to address societal issues. They should be capable of identifying current and future problems facing society and finding solutions to these challenges. They will also be able to work effectively in a team. The world around us is changing rapidly, and when students graduate after four years, they will undoubtedly encounter new challenges. They should be able to transform these challenges into opportunities. Therefore, students must develop holistically, beyond just their own subject areas.

In this regard, a student must earn some mandatory extra points to obtain a B.Tech. degree under MAKAUT. This requirement falls under the Mandatory Additional Requirements (MAR). A table listing the activities and the corresponding points that a student can achieve over the four-year course duration is illustrated in the subsequent pages.

Minimum Activity Points to be collected:

- For Regular Students – 100 points
- For Lateral Entry Students – 75 points
- **Minimum 25 points to be earned every Year**

Notes:

- 1) Every student shall participate in the co-curricular and extra-curricular activities and produce documentary proof to the designated Faculty Members appointed by the Head of the Department/Principal/Director in the respective college. Thereby the student should earn the required points before he/she appears for the Final Examinations.
- 2) A student's result of his/her Final Examinations will be withheld until he/ she completes the minimum activity points by the end of his/her Degree Programme.
- 3) In every semester, every student is required to prepare a file containing documentary proofs of activities, done by him/her. This file will be duly verified and activity points will be assigned by the mentors, at the end of every semester.
- 4) Each institution will form a three members committee, the composition of which is to be notified to the University. The committee will finalize the activity points for each student before entering them into the Online Point Entry System (at the URL, as specified by the COE of the University).
- 5) Every student has to earn at least 75, 100 or 125 activity points for 3, 4 or 5 year courses respectively. The points earned by the students will be reflected in their mark sheets.
