

Fire Extinguisher Training Session

Date: 4th June 2025

Venue: Mechanical Workshop Ground

Organized by: Department of Estate Campus Services (ECS), CEMK

Trainer: M/S Global Fire Service, Kamardaha, Kantapukur, Bagnan

➤ About the Session

To enhance fire safety awareness and emergency preparedness, a Fire Extinguisher Training Session was conducted at the **College of Engineering & Management, Kolaghat** on 4th June 2025. The training was specially arranged for **faculty members, non-teaching staff, and security personnel**, reaffirming our commitment to a secure campus environment.

➤ Objectives

- Understand types and uses of fire extinguishers
- Learn fire safety principles and emergency response steps
- Gain hands-on experience in using extinguishers

➤ Resource Person

The session was conducted by a certified trainer from **M/S Global Fire Service**, who brought valuable insights and practical guidance. The training included a **comprehensive theory session** followed by a **live demonstration**.

➤ Training Highlights

1. Theory Session:

- Causes and classes of fire (A, B, C, D, K)
- Types of fire extinguishers
- PASS technique (Pull, Aim, Squeeze, Sweep)

2. Practical Demonstration:

- Live fire extinguisher handling
- Supervised hands-on training

➤ Outcomes

The session was well-received and participants gained:

- Enhanced confidence in operating extinguishers
- Practical skills for real-world fire situations
- Increased awareness of safety protocols

➤ Recommendations

- Regular fire safety refresher sessions
- Display fire safety instructions prominently
- Ensure accessible, functional extinguishing equipment

➤ Acknowledgements

We thank **M/S Global Fire Service** for their expert training and all faculty and staff for their enthusiastic participation.
