<b>Total Participants</b>	<b>: 84</b>

**Speaker: Er. Tarak Maji**

Senior Manager, PS

West Bengal Power Development Corporation

**Objective of the event:** To inspire students to merge innovation with sustainability by highlighting milestones in renewable energy.

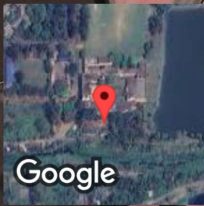

**Key outcomes of the activity:** The students gained an understanding of the importance of energy conservation, became aware of the current state of the art in the energy sector, and learned about various techniques for effectively utilizing renewable energy resources.

**Benefit in terms of Learning:** It builds the cognitive ability required for students to become future leaders who can harmonize economic progress with environmental preservation.
